

AMENDMENTS TO THE ABSTRACT

Please substitute the following paragraph(s) for the abstract now appearing in the currently filed specification:

-- A laminated glass has a laminated resin film and two glass plates laminated on both sides of the laminated resin film. The laminated resin film is composed of at least one polyvinyl butyral film and at least one fluorine resin film which are laminated. A laminated glass is composed of at least two non-tempered glass plates and at least one resin interlayer film which are bonded. At least one of the glass plates is a non-tempered borosilicate glass plate. --
